

Dear Community Partner,

Thank you for your interest in bringing *Raising Highly Capable Kids* to your community. *Raising Highly Capable Kids* is a proven program created to build stronger families by empowering parents with confidence, tools and skills they need to raise healthy, caring and responsible children. Rezilient Kidz believes that everyone should have access to programs and resources that help families thrive. However, we also understand that not every community has the financial resources they need to implement programs that they foresee as beneficial. Our hope is that this application process will allow Rezilient Kidz to assess your need while also taking into consideration the feasibility of underwriting this project in your community.

The first step in the process is to fill out the attached application. We are thrilled with the response we have received from communities – like yours - that desire to equip parents to raise children that are healthy, caring and responsible. Our goal through this application process is threefold:

1. To help you understand and assess the needed infrastructure for success.
2. To gauge the readiness of your community for training and implementation.
3. To establish a plan for sustainability once Rezilient Kidz has fulfilled our commitment to your community.

Current capacities allow Rezilient Kidz to invest in a limited number of communities per calendar year and we want to select locations that are motivated, ready and equipped to serve families well through this whole process.

Thank you for taking the time to submit an application. Please feel free to contact me with any specific questions you may have.

Sincerely,

Mike
