Raising Highly Capable Kids is a research based, bilingual parenting curriculum developed to build stronger families by empowering parents with the confidence, tools, and skills they need to raise healthy, caring, and responsible children.

Based on the Search Institute's 40 Developmental Assets, the program has been proven to increase parent engagement and school achievement.

The Facilitator Training Day is designed to offer both an in-depth overview of the Raising Highly Capable Kids program (first hour) as well as "hands on" training for those that will be facilitators for the program.
